FOUNDED 1957

Publications from the Michigan State University College of Agriculture & Natural Resources, MSU Turf and Landscape Digest, MSU Pest Management Digest, MSU Gardening in Michigan Digest and the USGA Green Section have been recently released. The Michigan Turfgrass Foundation is proud to share recent news and support these exceptional turf related programs at Michigan State University and turf related organizations throughout our industry.

GARDEING IN MICHIGAN

Lawn turf update - July 6, 2023

July 6 | Kevin Frank

Lawns have recovered following the dry conditions the last couple months but now many diseases are appearing.

USGA GREEN SECTION RECORD

The Ins and Outs of Managing Creeping Bentgrass Putting Greens

Creeping bentgrass putting greens can provide a high-quality playing surface. However, maximizing the potential of this grass requires good growing environments and an agronomic program that promotes the many strengths of creeping bentgrass while also protecting against its weaknesses.

MSU PEST MANGEMENT

Dry forecast: How will that impact weed control?

Erin Burns and Christy Sprague

The dry weather we are experiencing throughout Michigan will have impacts on preemergence herbicides that were already applied at planting and future postemergence weed control.

USGA GREEN SECTION RECORD

No Dew? No Problem!

Installing a foamer kit on fairway mowers helps operators see the previous pass more easily, reducing the risk of skips or excessive overlaps when fairways are cut without dew.
